

GUITAR LESSON I

All songs played using just 1 finger. Use your index finger and support with your middle finger if you need to. Have your thumb directly behind your finger on the back of the neck and pinch.

Make sure your guitar is tuned in drop D by tuning the lowest string (the one closest to you) down to a D - all other strings are the same as normal.

Only play the 3 strings that are closest to you. In drop D these are D, A & D.

Practice slowly playing each fret on a walking beat and as you get more comfortable start to get a little faster until you can play along with the original recordings. You can then move onto a jogging beat - moving in little circles with your picking hand.

ALL NUMBERS FOR SONGS ARE IN DROP D

Happier: 0 - 3 - 8

Shotgun: 3 - 8 - 0 - 10

Leave a Light On: 0 - 8 - 3 - 10
